SUMMARY

Military veteran with 9 years of leadership experience in the Army National Guard and a strong background in IT troubleshooting and problem solving. Skilled in software deployment and device management using tools such as SCCM and Jamf, with a track record of improving efficiency and security. Seeking to transition into a junior software developer role, where I can apply my technical expertise, problem solving skills, and eagerness to learn to build reliable and effective solutions.

LANGUAGES | FRAMEWORKS | TOOLS

JavaScript, HTML & CSS, Java | React | Visual Studio Code, IntelliJ

EXPERIENCE

Boxing Mindset — LaunchCode Unit 1 Final Project — <https://boxingmindset.netlify.app/>

- A “one-stop” where competitive amateur boxers can track their progress and train for upcoming amateur competitions as well as have coaches monitor each fighter’s progress
- Developed an interval timer feature used for keeping track of boxing/resting rounds
- Designed a weight management feature that compares target weight class with current weight class based on current weight and gender
- Built a class attendance feature to manage which classes will be attended or unattended
- Full Project Tech Stack: JavaScript, HTML, CSS, React

IT Technician — Trident Technical College

June 2024 - Present

- Delivered Tier 2 technical support as a Field Technician, resolving complex hardware and software issues and streamlining troubleshooting processes to improve efficiency
- Managed and deployed software packages, imaging, and updates to over 50+ college campus devices using SCCM as a Tier 3 technician, ensuring consistent application delivery across multiple departments
- Led IT projects including new computer lab setups and hardware refreshes, completing projects ahead of schedule and within budget constraints

Military Officer — Army National Guard

July 2016 - May 2025

- Led a platoon of 30+ soldiers, overseeing daily operations, training schedules, and mission readiness, achieving a 100% compliance rate on all operational standards
- Coordinated daily operations and administrative functions for a 120-soldier company, managing schedules, resources, and mission planning to ensure 100% readiness and compliance with all directives
- Managed battalion-level logistics as S-4, coordinating supply chain operations and resource allocation for 500+ personnel, ensuring timely delivery of critical equipment and reducing shortages

EDUCATION

LaunchCode, Software Development, 2026

Stanford University, Certificate, Code in Place, 2025

Trident Technical College, Certificate, Internet Programming

The Citadel, Bachelor of Arts, Psychology
