SUMMARY

Military veteran with 9 years of leadership experience in the Army National Guard and a strong background in IT troubleshooting and problem solving. Skilled in software deployment and device management using tools such as Microsoft System Center Configuration Manager (SCCM) and Jamf, with a track record of improving efficiency and security. Seeking to transition into a junior software developer role, where I can apply my technical expertise using Java and JavaScript, problem solving skills, and eagerness to learn to build reliable and effective solutions.

LANGUAGES | FRAMEWORKS | TOOLS

JavaScript, HTML, CSS, Java, SQL | React, SpringBoot | MySQL Workbench, Visual Studio Code, IntelliJ

EXPERIENCE

Boxing Mindset — LaunchCode Unit 1 Final Project — <https://boxingmindset.netlify.app/>

- A “one-stop” where competitive amateur boxers can track their progress and train for upcoming amateur competitions as well as have coaches monitor each fighter’s progress
- Developed an interval timer feature used for keeping track of boxing/resting rounds using JavaScript and React framework
- Designed a weight management feature that compares target weight class with current weight class based on current weight and gender using JavaScript and React framework
- Built a class attendance feature to manage which classes will be attended or unattended using JavaScript and React framework
- Full Project Tech Stack: JavaScript, HTML, CSS, React

IT Technician — Trident Technical College

June 2024 - Present

- Delivers Tier II technical support as a Field Technician, resolving complex hardware and software issues and streamlining troubleshooting processes to improve efficiency
- Manages and deploys software packages, imaging, and updates to over 50+ college campus devices using SCCM as a Tier III Endpoint Technician, ensuring consistent application delivery across campus
- Leads IT projects including new computer lab setups and hardware refreshes, completing projects ahead of schedule and within budget constraints

Military Officer — Army National Guard

July 2016 - May 2025

- Led a platoon of 30+ soldiers, overseeing daily operations, training schedules, and mission readiness, achieving a 100% compliance rate on all operational standards
- Coordinated daily operations and administrative functions for a 120-soldier company, managing schedules, resources, and mission planning to ensure 100% readiness and compliance
- Managed battalion-level logistics as S-4, coordinating supply chain operations and resource allocation for 500+ personnel, ensuring timely delivery of critical equipment and reducing shortages

EDUCATION

LaunchCode, Software Development, 2026

Stanford University, Certificate, Code in Place, 2025

Trident Technical College, Certificate, Internet Programming, 2025

The Citadel, Bachelor of Arts, Psychology, 2017
